Bad Shoulders

Narrow Highways

New Auction Plant

The section of U.S. 67 between Hope and Texarkana is piling up an accident record that is out of reason when compared with the relatively small population of Hempstead and Miller counties.

But U.S. 67 is the great transcontinental route in winter and as it approaches the north-and-south highway junctions in Hope (No. 29) and Texarkana (No. 71) traffic is congested far beyond what you might expect from the population of the country the road traverses.

The Star has pointed this out before, while emphasizing the incredible danger that our own State Highway Department has been creating in attempting to reshape the dirt shoulders of the road. The effect of this work, done in wet weather, has been to make the shoulders impassable for cars. And the final result is that traffic is nailed down to the concrete roadway, which has only two lanes.

This means a narrow road and a high ratio of accidents, for when oncoming traffic veers over into your lane you are left with no place to go.

You don't necessarily have to build three- and four-lane roads to prevent accidents. Some intelligent planning of highway shoulders would do as well, Texas does it. But Arkansas never has.

And this isn't a matter of money. It's simply a lack of attention, which has grown worse with the passing years.

Arkansas can, if the Highway Department is compelled by public opinion, construct gravel or asphalt shoulders to give three or four feet of secure footing for cars on either side of the concrete lanes.

Before we talk about building additional highways let's finish the job on the ones we already have—which is only a maintenance matter.

The Sutton Livestock Commission business is going to build modern quarters on a five-acre tract west of Hope on U.S. 67. Claude Sutton announced this week.

This speaks volumes for the growth and future stability of the livestock industry in southwest Arkansas. The Sutton enterprise brings in stockmen from miles around Hope, has been doing so for many years—and now a new and modern plant will be built. The new section has finally turned away from cotton-and-corn farming to livestock and a diversified economy.

## Now We Must Remain Alert For Switch In Red Tactics

By JAMES THRASHER

Right now is a good time for the country to be alert for a possible shift in Communist tactics. For the election results dictate a radical change in party strategy.

The Reds took a bad beating in Henry Wallace's trouncing vote, since he ran on a substantially Communist platform. His defeat repudiated the apologists for Soviet aggression, and clearly indicated the meager opposition in this country to European aid and other instruments of our bipartisan foreign policy.

Now, if their past practices are any guide, the Communists will drop Mr. Wallace, and fast. The party has no sympathy with failure. It pays off on results, not effort. Mr. Wallace may try to keep his party going, but he will probably have to go along without the Moscow-directed brethren.

A Republican president and Congress might have impelled the far left to stick with the third party and yell against "reaction." But Truman, campaigning and winning on a New Deal platform, gave the comrades some new problems in the fields of politics and labor.

A tip-off on the next switch in party line might be found in the post-election claims of Mr. Wallace. He now says that his party "forced the Democrats to do the mummy of Roosevelt and to promise the American people a return to the New Deal." This might mean that the Communists will try to drift back into the party they supported during the war—even though they get rid of Mr. Wallace en route.

If they do they will find that Mr. Truman, in spite of his "red herring" campaign speeches, is unsympathetic toward domestic as well as foreign Communism. They will get much comfort out of Congress, no matter who controls it. But, in the field of labor, there may be one grain of comfort for them in the Democratic victory. For the new Congress is pretty sure to throw out at least part of the Taft-Hartley Law—including, perhaps, the section requiring non-Communist affidavits from union officers.

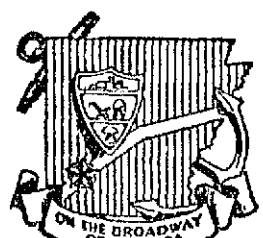

This would turn the federal spotlight on the Communists and pro-Communists in labor. Working once more in semi-darkness they would likely try to regain some of the power they lost when the light and heat were on.

We should imagine that the Communists will work quietly for a time. They have said about all they can against the Marshall Plan. Now they may get orders to button their lips, concentrate on domestic objectives, put on democratic disguises and once again make noises like good New Dealers.

But we may well be wary of any show of moderation and co-operation. The comrades put no high value on honesty. Nor is consistency a jewel in the Communist diadem. The Reds have been for Hitler and against him, anti-Roosevelt and pro-Roosevelt, foes of capitalism and co-operators with capitalism. So it behooves the rest of us to keep our eyes open and not be fooled.

Adult male coyotes weigh about 35 pounds. Their name is a non-revised version of the Aztec word "coyotl" meaning "barking dog."

## Promises Action to Carry Out European Aid

Washington, Nov. 27 (AP)—Rep. Cannon (D-Mo.) today promised swift action to fill a \$1,250,000,000 gap in the European Aid program.

The veteran lawmaker is due to become chairman of the House appropriations committee January 3. That will put him in a position to give a powerful shove to an expected administration request for the additional Marshall Plan fund.

President Truman, foreboding such a request yesterday in authorizing Economic Cooperation Administration Paul G. Hoffman to use the entire \$4,000,000,000 European recovery fund by next April 2 instead of making it last until July 1.

The 80th Congress gave Mr. Truman that option in finally approving the foreign aid appropriation bill which House Republicans tried to slash last spring, spearheaded by Rep. Taber (R-N.Y.), retiring appropriations committee chairman.

Cannon, however, told reporters he will push the new measure as quickly as possible because "things seem to be moving pretty rapidly in Europe."

That echoed Hoffman's view. "Now is the time," he said, "to hit and hit hard for recovery."

The White House disclosed that the ECA boss had asked for the speed-up order on October 29. In his letter to the president Hoffman said only such action would meet the pressing minimum needs of the 16 Marshall Plan countries, the Allied zones of Germany and Trieste.

The \$275,000,000 China aid program which ECA administrators was not included in the presidential spending order. With the additional \$125,000,000 military aid fund nearly exhausted, the Chinese now are pressing for a much larger sum to help turn back their Communist foes.

Chinese aid is but one of the many foreign aid problems the new Democratic Congress will have to deal with. The Greek-Turkish aid programs are expected to require more money. And there is the question of financial assistance to the Western European defense union with which this country may be linked in a mutual aid pact.

## Waterfront Workers Vote on Agreement

New York, Nov. 27 (AP)—Waterfront workers begin voting today on whether they will accept agreements that would free most of the nation's strike fleet from the grip of strikes.

There were isolated criticisms of the new peace pacts. But at several port cities along the Eastern seaboard, local leaders of the AFL International Longshoremen's Association said last night they expected members to okay the new contract formal in balloting today.

Some of the 65,000 East Coast dockworkers on strike 18 days were expected to return to work tomorrow, and the others Monday, approved.

On the Pacific Coast, prospects also appeared good that 27,000 striking CIO longshoremen would approve a new tentative agreement in voting today and tomorrow.

On the Pacific Coast, prospects also appeared good that 27,000 striking CIO longshoremen would approve a new tentative agreement in voting today and tomorrow.

On both coasts, however, some friction arose concerning the proposed settlements.

In Baltimore, on yesterday, a poorly-estimated crowd of 2,000 discussed the terms and voted to oppose acceptance in the official balloting today.

Leaders of the meeting said the back of the jobs Monday, unless locals with 13,000 members. A delegate from Boston was quoted as saying his port and workers in Philadelphia and Baltimore did not favor the new terms.

But the new terms was issued by Joseph P. Ryan, ILA president, as an "attempt by the Communist party to becloud the issues."

In Philadelphia, Paul Baker, union international vice president, said a general membership meeting of dockworkers voted to endorse the new terms and to return to work Monday.

In Baltimore, a meeting of longshoremen was reported to have expressed approval of the proposed contract. August C. Izick, local ILA head, said he had notified employers the men will be back on their jobs Monday if other ports approve the terms.

The East Coast agreement provides for a 13-cent hourly increase in the basic pay rate of \$1.75 hourly, and a 19 1/2-cent increase in the night and overtime rate of \$2.62 1/2 hourly, plus other improvements in job conditions.

On the West Coast, where 27,000 longshoremen have been on strike for 67 days, there was some doubt that there would be complete maritime peace.

Doubt was caused by demands by Harry Ludeberg's AFL Sailors' Woodchucks and groundhogs are the same animal. They live in burrows when they dig themselves and belong to the squirrel family.

## Twisted Wreckage of Hope - Magnolia Cars

## Policy Makers Cool Toward Proposed Visit

Washington, Nov. 27 (UP)—American policy-makers were reported today to be cool toward Chiang Kai-shek's plan to visit this country.

The forthcoming trip was viewed in some official quarters as a move by China to bypass the policy-makers and appeal directly to Congress and the American people for more military and economic help.

Though it was generally understood that no official invitation was extended to Mr. Chiang, the State Department refused to say so. This caution presumably was prompted by fear that such a statement might constitute a "loss of face" for China's already hard-pressed Nationalist government.

As though in response to China's frantic entreaties for more help, Secretary of State George C. Marshall told newsmen Wednesday that the administration is well aware of the critical situation in the Far East. He added that this government is seeking the proper means of helping the regime of Generalissimo Chiang.

But Marshall made it clear that the administration (1) considers the problem complicated and is proceeding cautiously; (2) is trying to determine just how deeply this country can, or should, get involved in the Chinese war; and (3) will have to balance China aid against available supplies and "cold war" commitments elsewhere.

Mrs. Chiang said only a few days ago that she did not expect to come to the United States. Her sudden reversal of plans was taken here as further evidence that her husband, the Generalissimo, is not satisfied with President Truman's reply to his own appeal for increased American help. The exchange of letters has never been made public.

Mr. Truman yesterday rejected a proposal that Chiang himself be invited here to discuss the Chinese crisis. The suggestion was made by Rep. Sol Bloom, D., N.Y., during a White House talk with the president. Bloom quoted the president as saying he did not believe Chiang could afford to leave China at this time.

## Fulbright to Support Revision of Labor Law

Washington, Nov. 27 (AP)—Senator Fulbright (D-Ark.) will support the Taft-Hartley Labor act revision, but opposes its outright repeal.

The Arkansas senator, who voted for the law, said he would not object to repealing the law or re-enacting its principal provisions under some other name.

"I feel," he said, "some of the provisions should be eliminated," he added, however, that "it is difficult to state a position on a matter such as this without specifically knowing what the proposal will do."

## Everyone Agrees the Biggest Need of Today Is Pleasant Way to Get Up Each Morning

By HAL BOYLE

New York — (AP) — The biggest need today is a pleasant way to get up in the morning.

In this respect England is the most civilized country on the globe. There the traveler is awakened by a rap on the door, and somebody brings a cup of hot tea in and sets it by his bed.

After ten or fifteen minutes of slipping into a relaxed, warm, man is reconciled to the dismal prospect of rising and facing a cruel world. I tried to adopt this pleasant practice in my own household. But after the first four days Francis yawned one morning and said: "Well, Rover Boy, you've been pampered long enough. It's your turn to make the tea today."

That ended that. I'm so helpless in the kitchen I can't boil water without burning it.

The modern alarm clock, the poor man's substitute for the sunrise, in any form is the most horrible gadget contrived by a machine-worshipping age. It is far worse than a hammer blow on the head. Once I bought a Swiss musical alarm clock, thinking this would ease the wear and tear on jangled nerves.

It played the "Blue Danube." The first note so it wasn't bad. After that it slowly began to play a collective waltz, so that today I hear a waltz at any hour, day or night. I have the sensation of a workhouse undergoing the dry heaves. Somehow sure, peacefully, cold gray dawn don't go together any better than lavender and old snuff.

Hundreds of ways have been devised to get up on the right side of the bed in the morning. But I don't know of any that work well.

I know of people who go to sleep with a pot of coffee on a hot plate by their bedside. I know others who leave their radios turned on or are called by telephone. They all still hate to get up.

The most ingenious contrivance I know of was rigged up by a screwball friend. He tied upside down on his bedstead a vacuum bottle full of hot coffee. Hanging from it was a tube with a clamp on the end. When he woke, up, my friend would reach up a drowsy hand, put the tube in his mouth, flip back the clamp and let there be coffee. Drinking the life-giving fluid, "Gee, now, he's back on alarm clocks."

"One morning the stopper came out of the bottle," he explained proudly. "Did you ever get woke up by a hot coffee sniffer?"

At a party the other night I was complimented about the daily battle I had getting out of bed.

"My husband had the same trouble," said a pretty young lady. "But I found a way to get him up and to work on time."

"Yes?"

"Well, I had to get up first to change the baby," she said. "One morning I accidentally laid the baby on the pillow beside my nose."

## Music Club Program Sunday

The Junior Division of the Friday Music Club will give the following program over KXAR at 1 p.m., Sunday, November 29:

- Piano Solo
- Suite of four numbers—Jan Mares. "The Silver Skates" by Ernest Harry Adams.
- On the Canal
- The Ice Like a Mirror
- Gretel on Stilts
- Festival of St. Nicholas
- Piano Solo "Pompomette"—Air for Dancing by Bernard, Nannette Williams.
- Vocal Duet—"O For the Wings of a Dove" by Miss Charlotte Tarpley, Ann Barr, accompanied by Mrs. C. C. McKel.
- Piano Solo Prelude by Rachmaninoff, Schumann, Schop.
- Chorus by Girl Scout Troop—"Girl Scouts' Anthem."
- Conrad's Glee—"God Our Loving Father," Richard Campbell.
- Piano Solo "Nocturne" by Chopin, Ethel Heath.

Under Sheriff Joe Karpach questioned him. Before the month was out Karpach ordered him to be taken to the county jail. The fifth day of the month, also, of a heart attack. He had been in office five years and never missed a day because of illness.

For several months the hex was forgotten. Jake appealed to the state supreme court. The conviction was upheld.

Last Sept. 26, Detective Lyons, at whom Jake made his threat, died of a heart attack. The fifth day of the month, also, of a heart attack. He had been in office five years and never missed a day because of illness.

At the time, Setten had asked to be relieved of the defense assignment.

"My heart does not beat in sympathy for this man, who fixes his life as more important than that of others," Setten explained. "The court ordered me to finish the trial. He attacked a heart attack in his office last night and died within minutes."

Other officials, connected with the trial are reluctant to talk about the hex. But Pierce County Attorney Patrick M. Stet, who prosecuted Bird, just laughs it off.

"Nothing to it," he said today. "Never felt better in my life."

The U. S. Department of Agriculture has forbidden the transportation of European rabbits for fear they will become a serious economic pest, as in Australia. All the rabbits found in the United States are hares.

The heaviest snow in the Canadian Arctic is that it is somewhat smaller and has a longer tail. Also the tails on the cars are more prominent.

## Hope Woman Killed, 5 Others Seriously Hurt in Wreck Near Texarkana

### America Wants to Aid China But Whether It Can Be Done Is Puzzle for Top Officials

By DEWITT MACKENI E

AP Foreign Affairs Analyst

The question of whether the United States will be able to increase its aid to Chinese Nationalist government in the fight against communism remains very much on the knees of the gods.

President Truman and Secretary of State Marshall still are struggling with the problem of what America properly can do in this emergency. Congressman C. A. Eaton of New Jersey, chairman of the House Foreign Affairs Committee, summed up the grim situation bluntly for reporters with the remark that he doesn't know how this country can give any further help that would be immediately effective. He added:

"China is in an international chaos beyond the wisdom of any man to predict what will come of it."

This American caution doesn't reflect any lack of desire to be helpful to friend China. What it does reflect is the uncomfortable fact that all-out aid to China might put an intolerable economic strain on the U. S. A.

The Chinese crisis is a bucket with a big hole in the bottom. You can keep on pouring in resources without filling it.

That's a fact which must be recognized by both America and China. In this connection, Harold K. Milks, AP correspondent in Nanking, reports that Chinese officials have become increasingly critical of Secretary of State Marshall. Generally they blame him for America's failure to give China what they consider "adequate support."

There has been a growing tendency among Chinese to shift the blame for their failures to the shoulders of Washington.

Now, now, China! Let's not have any of that kind of language. You are talking to your very good friend, Uncle Sam, and not to an

Atlas who carries the whole world on his shoulders. All he needs is that heaven helps those who help themselves.

The way the situation looks at this moment the United States has thought of halting the aid which it is giving China at present. The debate is whether America can afford the added enormous expenditure needed to meet the rebellion of the Moscow-encouraged Chinese Communists.

In considering this momentous question Washington of course isn't overlooking the implications in relation to the Bolshevik world revolution. Moscow would see a terrific grip on the Orient if the Chinese Communists should overthrow Generalissimo Chiang Kai-shek's Nationalist government and gain control of all China.

America and the other democracies recognize full well that either they must win the "cold war" against Bolshevik Russia or they will have to fight a "hot war" in due course for a certain.

Should China fall to the Communists, the Far East might well become the Armageddon of the fight between democracy and totalitarian Bolshevism. However, the Western allies are not without a formidable base in the western Pacific.

That is Japan—long time foe of Russia and susceptible of development as arsenal, fortress and source of man-power. The Red plague hasn't struck across Nippon much thus far, thanks to American occupation, although the loss of China to the Communists would pose a great threat against Japan militarily.

All things considered, I think we may expect that America will continue reasonable aid to China, but that the Chinese will have to work this out in the main for themselves. It has yet to be determined just what "reasonable" aid will be.

One woman, Mrs. Frank Hearne, and five other women seriously hurt yesterday afternoon in a head-on crash on Highway 67 near Texarkana, Ark.

On the very critical list are Mrs. Russell Steed, about 22, daughter of Mrs. Hearne and Mrs. C. C. Taylor, about 40, of Magnolia.

Seriously injured are Mrs. Ernest W. Copeland, 43, wife of the manager of Hope Hardware Co., and her 15-year-old daughter, Anita; Mrs. Claude Agee, also of Hope.

The collision demolished both automobiles.

Chief Deputy Tillman Johnson of Miller County who aided in the investigation said the crash apparently took place when the vehicle driven by Mrs. Taylor, headed toward Texarkana, attempted to pass another automobile. The Hope car was enroute from Texarkana.

Mrs. E. Jackson and Mrs. C. P. Allison, of Hope, and acquainted with the injured said they were the first on the scene, although they did not see the impact.

Johnson said an unidentified Houston, Tex. man took charge and helped remove the victims out of the demolished cars until Arkansas State Police and Miller County officers arrived.

Donato to Texarkana station and passengers loaded two injured to take them to St. Michael Hospital in Texarkana. Three ambulances from Texarkana and one from Hope were called to the scene.

Mrs. Hearne was dead on arrival at the hospital. A report this morning said the injured were doing as well as could be expected.

Mrs. Hearne is survived by her husband, two daughters, Mrs. Percy Sharp of Mooringsport, La., and Mrs. Russell Steed of Hope, an aunt, Mrs. S. E. Bear of Texarkana, and one grandchild, Percy Sharp III.

Funeral services will be held at 2 p.m. Sunday at First Methodist church by the Rev. J. E. Cooper. Active pallbearers are: Fred McElroy, C. W. Tarpley, Walter Locke, Howard Houston, G. O. Kelly, Syd McMath, Angus Dodson and R. Jackson.

Honorary All service station operators and oil and gas dealers of Hope, Ed F. J. Fadden, Lloyd Spencer, Dr. George Wright, Carl Roberts, Claude Agee, E. W. Copeland, R. O. Brider, Jess Hayes, Beverly Johnson, J. Beckwith, J. M. Harbin, all of Hope; Toby Williams, Dr. C. K. Ray, Dr. J. W. Mobley, Dr. Clebe Pardue, C. H. Mechem, Dr. J. C. Pullen, Earl G. Williamson, O. R. Liverman of Vivian, La.

## Hex of Slayer Appears to Be Working

Tacoma, Wash., Nov. 27 (UP)—Jake Bird must have smiled to himself as he sat in his cell in the Pierce county jail today.

And if the 46-year-old condemned Negro really believed he had been concentrating on his next victim, the sixth since he put the hex on his persecutors.

Just a little less than a year ago, Dec. 6, 1946, Jake stood up before Judge L. D. Dodge and pleaded guilty to the first sentence him to be hanged Jan. 16, 1948, for the axe murder of Mrs. Bertha Kludt and her 17-year-old daughter.

"Wait and see," Jake told Detective L. Sherman. "You policemen and judges will be settling and waiting at the party gates a long time before I roll up."

A month later, Judge Dodge was stricken with a heart attack and died. Friends said he had been in excellent health right up until his death.

On Jan. 14, two days before his scheduled execution, Jake was granted a stay by Gov. Mon C. Wallace so he could be questioned about some unsolved murders in the Midwest.

Under Sheriff Joe Karpach questioned him. Before the month was out Karpach ordered him to be taken to the county jail. The fifth day of the month, also, of a heart attack. He had been in office five years and never missed a day because of illness.

For several months the hex was forgotten. Jake appealed to the state supreme court. The conviction was upheld.

Last Sept. 26, Detective Lyons, at whom Jake made his threat, died of a heart attack. The fifth day of the month, also, of a heart attack. He had been in office five years and never missed a day because of illness.

At the time, Setten had asked to be relieved of the defense assignment.

"My heart does not beat in sympathy for this man, who fixes his life as more important than that of others," Setten explained. "The court ordered me to finish the trial. He attacked a heart attack in his office last night and died within minutes."

Other officials, connected with the trial are reluctant to talk about the hex. But Pierce County Attorney Patrick M. Stet, who prosecuted Bird, just laughs it off.

"Nothing to it," he said today. "Never felt better in my life."

## Hints Benny May Not Get Tax Cut

Washington, Nov. 27 (UP)—An informal but official hint today that comedian Jack Benny may not be able to save some tax money on the sale of his radio show as Amos 'n' Andy did.

Benny agreed yesterday to switch from the National Broadcasting Co. to the radio network. Broadcaster System.

Though CBS gave no details of the deal, it was understood that the network purchased the show outright for about \$4,000,000 as a capital gains transaction.

In that way, Benny would have to pay only the capital gains tax of 25 per cent. The income tax on that sum would amount to more than 75 per cent.

A capital gains transaction is perfectly legitimate, provided it is approved by the Internal Revenue Bureau. The deal was approved by the bureau.

Revenue officials declined to comment on reports that they had been asked for a ruling the Benny case.

However, one official emphasized that the Amos 'n' Andy decision "certainly shouldn't be regarded as a precedent."

"When you've stabbed your toe once," he said, "you don't turn right around and do it again on purpose."

The revenue bureau's handling of the Amos 'n' Andy case brought Congressional demands for an explanation. Reps. Percy Priest, D., Tenn., and Carl T. Curtis, R., Neb., asked the bureau whether there is a loophole in the law which will permit high-salaried entertainers to save money on taxes.

It was understood that Amos 'n' Andy got a favorable ruling because they sold what was considered a capital asset. That is, they sold a show which could be carried on without them.

In contrast to Benny and some of the other stars, Freeman Gosden and Charles Correll, who play the roles, are not well-known as personalities. It's their show that the public knows. Hence, the show is considered a physical asset. They sold a piece of property.

One official said that if there's a loophole in the law, it might be in the definition of a capital asset. It's up to Congress to say whether there should be another definition.

But Gosden and Correll are all fact. The government, officials say, doesn't renge on rulings once they're made.

Regarding the Benny case, a CBS spokesman in Hollywood said: "If and when any deals are made for the purchase of radio properties, all details of such transactions will be submitted to the Treasury Department for approval."

The Internal Revenue Bureau is a branch of the Treasury Department.

## Concert Drive Opens on Monday

The first annual membership campaign of the Hope Community Concert drive will begin Monday, November 29, at 6 p.m.

During this time more than 100 volunteer workers in Hope and the surrounding area accept applications for membership in the association.

C. T. Kiefer, representative of Community Concert Service of New York will be present during the week to conduct the campaign.

The local committee is able to choose the program for the coming concert season from over 150 artists and attractions under management of Mr. Kiefer's Company. To give our readers an idea of the high caliber of the entertainment that Hope Community Concert association can choose from, here are just a few: Rose Benson, Lily Pons, Helen Traubel, Anna Kanans, Mary Van Kirk, Maria Lanza, Lawrence Tibbett, William Primrose, Carroll Glenn, Heitz, Albert Spalding, Robert Casata, Scott, Janis, Hazel, Scott, Durl Ives, Morley and Garbur, and many others. Those interested in looking over the complete list of artists and attractions may do so by visiting the Community Concerts Headquarters in the Hope Chamber of Commerce.

The campaign will close at 6 p.m. Saturday, December 4, and absolutely no memberships will be sold after that time. Only members may attend the concert and the association will not sell tickets to individual concerts. Remember, only members may attend and you must join the association during membership campaign week.

Suggestions to types of concerts are welcomed from the people who join and the committee which choose the artists will use their suggestions in picking the program.

A minimum of three concerts will be presented for its members by the Hope Community Concert association and it enough membership fees are sent they will have four concerts.

If you are not contacted by one of the many workers please telephone headquarters and a membership card will be reserved for you.

Community Concert associations are operating successfully in 19 other Arkansas towns and in over 1000 cities throughout the United States. There are associations in Alaska, Canada, and South America.
